

EGO LB5301E Blower

£269.00

Our LB5301E handheld blower kit includes a 2.5Ah battery and standard charger. This will allow you up to 75 minutes run time including variable speed settings, meaning you can increase the power as and when you need.

Included in the box is the AN5300 flat nozzle which condenses airflow, enabling you to tackle even the biggest of leaf walls with even more precision. With Turbo Boost, you can enjoy 900m³ of air per hour, and is perfect for when you're finishing a job, or getting started on heavy leaf fall.
