

Emily Rotor On Frame

£POA

Emily Rotor On Frame. In widths from 1.4-2.7m working cutting widths. For high out put. Designed for large cattle farms. Fast and continuous cutting, Ideal for cutting large quantities of silage; up to 80 tons per hour. A cost-effective solution. This will enable dairy and cattle farmers to keep a clean sealed face on any silage clamp, therefore reducing waste and secondary fermentation. This piece of kit can be fitted to any telehandler or tractor & loader combination.
