

Trident Supabeet pellets

£14.00

- The sugar fraction is rapidly digested in the small intestine providing instant energy
- The fibre fraction is digested at a slower rate, which promotes satiety and stamina
- Molassed sugar beet feed promotes an even supply of energy
- The palatable nature of the feed encourages shy feeders to eat
- Promotes the intake of other less palatable ingredients e.g. wormers
- 100% wholesome and natural

High calcium level is ideal for the young, growing and lactating horse Helps prevent laminitis
