

Vicon Andex 464

£POA

The new Andex single rotor rakes are based on the ProLine gearbox technology. These machines offer working widths of 4.20m and 4.60m respectively and are fitted with the renowned Vicon ProLine gearbox, with its maintenance free oil bath solution. Features such as oscillation dampers, tandem axles and HydroLift height adjustment are hallmarks of the new single rotor rakes. THE ADVANTAGES: Working widths of 4.6m ProLine oilbath gearbox. Oscillation dampers for smooth runnings. HydroLift height adjustment. 4 wheel tandem axle. Third wheel available as option. Available in stock. Contact us for price and finance options.
